RHODICARE® S

Standard Quality

Description

RHODICARE® S is a sodium salt of an anionic high molecular weight heteropolysaccharide produced by pure culture fermentation of *Xanthomonas campestris*, purified by recovery with isopropanol, dried and milled.

Application areas

Thickening and stabilising hydrocolloid giving aqueous solutions of high viscosity and high yield value even at low concentrations, not affected by temperature. Pseudoplastic non thixotropic behavior.

Effective suspending and stabilising agent for multiphasic systems: aqueous suspensions, emulsions, and foams, easily sprayable, flowable pumpable (creams, lotions, and toothpastes).

Thickening agent for creams, suspensions, shampoos, gels: synergistic effect with galactomannanes, glucomannanes.

Antisynthesis agent, reduces gel exudation.

Usage levels

Recommended use level: 0.2 - 1 %

Directions for use

RHODICARE® S is slowly dispersible and soluble in water; heating (to 50°C) speeds up the dissolution. Specific formulations and processing recommendations may be obtained on request

Physical/chemical specifications

Appearance	Fine powder
Colour	Creamy-white to yellowish
Loss on drying	max. 13 %
pH (1% solution)	6,0 - 8,0
Ash	6,5 - 16,0 % *
Isopropanol	max. 750 ppm *
Particle size	
---	min. 95 % through 180 µm (80 mesh)
---	min. 99.5 % through 250 µm (60 mesh)
Viscosity	1,200 - 1,600 mPa.s

24°C, 1% KCl (Brookfield LVT, 60 rpm, spindle 3)

*tested and controlled according to a relevant sampling plan from raw materials, environment, in-process or end-product and not listed in our standard Certificate of Analysis.

Microbiological specifications

Total plate count	max. 100 /g
Yeast and mould	max. 50 /g
Staphylococcus aureus	absent in 1 g
Pseudomonas aeruginosa	absent in 1 g
Enterobacteria and other	absent in 1 g
Gram- rods	

Heavy metal specifications

*tested and controlled according to a relevant sampling plan from raw materials, environment, in-process or end-product and not listed in our standard Certificate of Analysis.

Heavy metals (as Pb)	max. 10 mg/kg *
Arsenic (as As)	max. 2 mg/kg *
Lead (Pb)	max. 2 mg/kg *
Cadmium (Cd)	max. 1 mg/kg *
Mercury (Hg)	max. 1 mg/kg *

Storage

Store cool and dry.

Shelf life is 24 months from the date of production.

PRODUCT DESCRIPTION

Material no. GUM0001

RHODICARE® S

Standard Quality

Packaging

Corrugated, poly-lined cartons of 25 kg (55.1 lbs.)

Country of origin

France

APPROVED DATE..... **16 NOV 2021**
