

Promois WU-32R

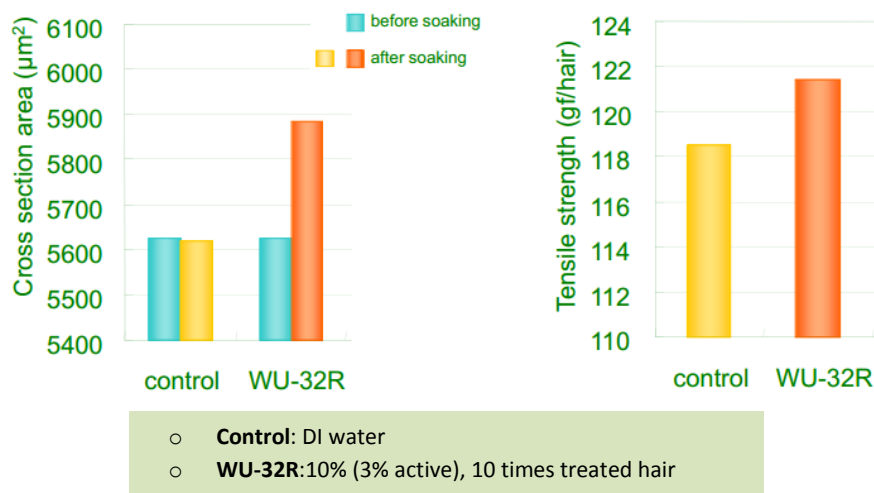

Promois WU-32R originates from Fish scale (Tilapia) from Japan and is water solution of polypeptide obtained by hydrolysis of collagen. It is closely similar to collagen originates from cattle gelatin. In fact, both amino acid compositions are alike. Promois® WU-32R contains high hydrophilic neutral amino acid such as glycine and alanine, also hydroxyproline and hydroxylysine. Molecular weight is only 400 Dalton so it's very easily to be absorbed. Therefore, **Promois WU-32R** has many benefits such as...

✓ Promois WU-32R restores hair moisture and prevents dry hair

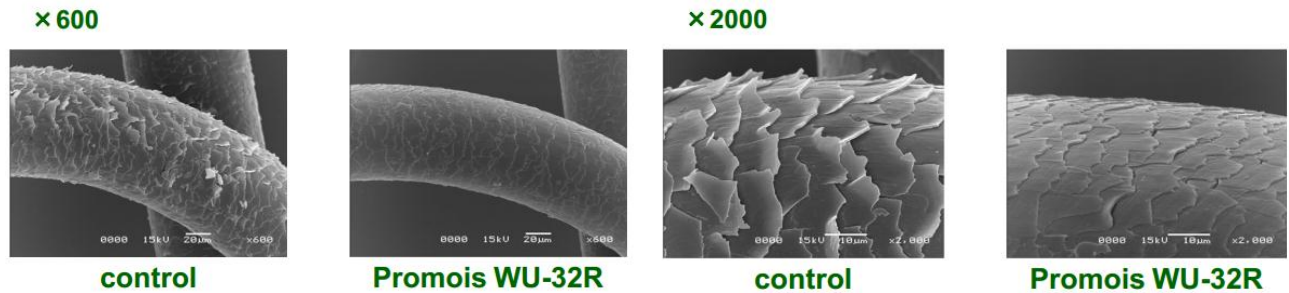

✓ Promois® WU-32R revitalizes hair strength that was lost

Approve Date 11 Jun 2021

- ✓ **Promois® WU-32R repairs damaged hair surface and recovers the smoothness**

SEM observation

- **Control:** DI water
- **WU-32R:** 10% (3% active), 10 times treated hair

- ✓ **Easy to use** It is water solution of polypeptide so it's easy to cooperate with aqueous formula
- ✓ **Recommended dose** 5-10%

R : side chains of various amino acids
 n : degree of amino acid polymerization

INCI	Hydrolyzed Collagen (and) Water (Additives: 3% Butylene glycol, 1% Phenoxyethanol)
%Active matter	30%
Solubility	Miscible in water
Average MW	400 Da
pH	5.5 -7.5

Approve Date 11 Jun 2021
